

Trails and Cycling Strategic Management Plan

Plain English summary

This plan is written by the City of Onkaparinga. When you see the word 'we,' it means City of Onkaparinga.

Kaurna recognition

We recognise Aboriginal and Torres Strait Islander people as the Traditional Owners of Australia. They are the first people of this place – living here and looking after the land and rivers and seas. For us, this is the Kaurna people.

Introduction

In our area we have different kinds of footpaths, shared use paths and trails for people to use for travel and to enjoy. A shared use path is at least 2.5m wide and can be used for walking, cycling or horse riding. The Trails and Cycling Strategic Management Plan focuses on shared use paths and trails for:

- walking
- hiking
- cycling
- horse riding
- canoeing and kayaking.

Examples of some of our shared use paths and trails include:

- Coast to Vines Rail Trail
- Sturt River Linear Trail
- Onkaparinga River Canoe Trail
- Coast Park
- Christie Creek Trail.

Our Plan

The Plan explains the rules we use to decide what kind of shared use paths and trails we should have and where we should have them.

Some of these rules include:

- Have them where lots of people want them and will use them.
- Have them in places that visitors like to go such as wineries and the beach.
- Have them where they link places like shops, public transport, and schools to make it easy for people to walk or cycle to them.
- Have them in places that make it safer for people to walk or cycle.

We use the rules to help decide:

- which shared use paths and trails we need to work on to keep them safe and nice to use
- where we should build new paths and trails
- whether the path should be 2.5m or 3m wide
- whether it is made of paving bricks, bitumen, or something else.

Each year we share information with the community about which paths we are working on or building in our Annual Business Plan and Budget. Our Annual Business Plan and Budget can be found on our website.

This Plain English plan is a summary of another plan. It only includes the most important ideas.
